Subject:	Fortnightly Garden Waste Collection Service – Bins

Question:

"I note the domestic green waste collection service has now resumed, on a bi-weekly basis.

With that in mind would you please let me know:-

- a) How many domestic 'green waste' bins did the DBC i) purchase? and; ii) at what total cost including delivery to DBC?**
- b) How many domestic 'green waste' bins does the DBC currently have in stock? (please state the most recent stock count date)."**

Response:

a) i) and ii); The Council purchased 4,200 green waste bins in 2022 and a further 600 in 2024. The cost of the 4,200 bins was £79,950.00 and delivery cost approximately £4,500.00*. The recent purchase of 600 bins cost £12,180 and delivery cost approximately £1,000.00*.

*The delivery charge is a pro rata approximation as the shipping containers were not exclusively garden waste bins.

b) As of 27th February, 2024 the Council has approximately 820 bins in stock, this figure includes the recently purchased 600 bins.
