

PROJECT OUTLINE

The Dragonflies' Den is a new scheme run by Douglas City Council and Manx Wildlife Trust in association with UNESCO Biosphere Isle of Man to support the Community of Douglas to develop or nurture projects that;

Protect or
increase
biodiversity

Help fight
climate
change

Support
pollinator
insects

- 🌿 Do you have an idea for a community project in Douglas to help the environment?
- 🌿 Maybe a community garden, wildlife pond, microforest or wildflower patch?
- 🌿 Would you like the opportunity to potentially win a voucher towards your project?

If so, the Dragonflies might be able to help.

Please tell us a little bit about your project or idea on the form overleaf or, if you prefer, by sending us an email, video or similar to enquiries@mwt.im with the subject "Dragonflies' Den".

If you'd prefer to speak to us, particularly if you don't have all the answers yet, you can still get in touch with Hannah at Manx Wildlife Trust on **(01624) 844432**.

Please tell us a little about you first;	
Name of group(s) (if applicable) <i>If you are a new group who has come together for this project, please tell us a little bit about who you are.</i>	
Name of main contact(s)	
Telephone number(s)	
Email address(es)	
Please tell us about your project or idea;	
Does your project or idea have a name?	
Where is it? <i>(Please note that Dragonflies' Den projects must be in Douglas. If you have an idea for a project outside Douglas, please feel free to contact Manx Wildlife Trust).</i>	
Please provide us with a description of your project or idea. <i>(If you can, please try to explain how the project will protect or increase biodiversity, help fight climate change or support pollinators.)</i>	
What do you think you will need to help you to deliver the project or idea? <i>(We can potentially provide expert advice and vouchers for the three winners to help with some of your project costs.)</i>	
Do you already have any of the things you'll need? If so, what?	
Have you thought about how your project will be looked after or maintained? If so, please provide a brief description.	

Thank you. The next step is that someone from Manx Wildlife Trust will contact you to arrange to talk to you about your project or idea and, if they feel it has potential for the Dragonflies' to help, will work with you to develop your project in more detail. They may also be able to point you in the direction of other resources or people who can help in addition to or instead of the Dragonflies.

The deadline for project outlines in 2025 is Thursday 30th January. Manx Wildlife Trust will be in touch to discuss your project.

Charities are not eligible to participate in this competition.
